

## Product Information

Double-sided mounting tape based on a polyethylene foam for long lasting mounting of decorative and functional trims, decals, logos, displays and components for the automotive industry.

The acrylic adhesive offers an excellent bonding with high resistance against temperature, ageing, UV and solvent and is therefore suitable for outdoor use.

The permanent elastic compressible foam carrier allows different expansion rates between the substrates. Also suitable for slightly rough and structured surfaces.

POLI-MOUNT 390 meets the required specifications of the automotive industry.

## Technical Data

<b>Carrier:</b>	PE-foam, black
<b>Adhesive:</b>	Acrylic
<b>Liner:</b>	PE-film, green
<b>Adhesion [N/cm]:</b>	6,50      +/- 10 %
<b>Thickness [mm]:</b>	0,90      +/- 5 %
<b>Temperature resistance [°C]:</b>	-40 / +95

## Standard Dimensions

1.250 mm x 66 m

## Safety Data Sheet

When used under normal conditions, this product does not generate or release any dangerous substances or hazardous chemicals. This is a non-hazardous product in accordance with the current GefStoffV and EU criteria. Therefore it is not necessary to prepare a Material Safety Data Sheet for this product. The Safety Data Sheet serves only to comply with the regulation to supply information in accordance with REACH Regulation (EC) No. 1907/2006 and is available on request. This product is not a hazardous product with regards to transportation legislation; neither does it contain substances that are hazardous to water within the meaning of the federal water act. After use, dispose of the waste product in accordance with the local / national authorities.
