

Product Information

POLI-FINISH MATT

POLI-FINISH MATT is a high grade casting-paper that possesses a special release-coating especially designed to match our PRINTABLES range.

A semi-matt finish is achieved by covering the products POLI-FLEX 4020, 4600 & 4605 with POLI-FINISH MATT during the heat transfer.

POLI-FINISH GLOSSY

POLI-FINISH GLOSSY is a casting-paper with a release coated, high glossy surface. If the surface of the products

POLI-FLEX 4020, 4600, 4605 is covered with POLI-FINISH GLOSSY during the heat transfer, the result will have a shiny, glossy surface.

Application

- Heat press (3-5 sec.) the printed POLI-FLEX PRINTABLE product on the textile; then remove the transfer tape.
- Apply POLI-FINISH MATT / GLOSSY on top of the surface and heat press with the recommended transfer conditions of the respective POLI-FLEX PRINTABLE product

We recommend evaluation on test material.

Due to the various influences which occur from production and transfer of plotter letterings, consistency of the carrier materials and also washing and cleaning conditions, product liability can only cover the unprocessed material.

Technical Data

Material:	Casting-Paper white, release coated
Thickness [mm]:	0,20 +/- 5 %

Standard Dimensions

500 mm x 10 m

Safety Data Sheet

When used under normal conditions, this product does not generate or release any dangerous substances or hazardous chemicals. This is a non-hazardous product in accordance with the current GefStoffV and EU criteria. Therefore it is not necessary to prepare a Material Safety Data Sheet for this product. The Safety Data Sheet serves only to comply with the regulation to supply information in accordance with REACH Regulation (EC) No. 1907/2006 and is available on request.
